## ZDAP management information for 2022

---

Chair	United Kingdom
Co-Lead countries	Indonesia, Senegal, Viet Nam
ZDAP membership (December 2022)	<p><u>Countries:</u> Bangladesh, El Salvador, Indonesia, Italy, Kenya, Mozambique, Namibia, Netherlands, Pakistan, Kingdom of Saudi Arabia, Republic of the Gambia, Senegal, Sweden, Thailand, the United Kingdom and Viet Nam</p> <p><u>Organizations:</u> The Caribbean Public Health Authority (CARPHA), the Food and Agriculture Organization of the United Nations (FAO), Global Health Security Agenda Consortium (GHSAC), the World Organisation for Animal Health (WOAH), the Southeast Asian One Health University Network (SEAOHUN), the United States Centers for Disease Control and Prevention (US CDC), and the United States Department of Agriculture (USDA)</p>
Mandate	<p>This Action Package seeks to implement guidance and models on behaviors, policies, and practices to minimize the spill over, spread, and full emergence of zoonotic disease into or out of human populations proper to the development of efficient human-to-human transmission.</p> <p>ZDAP aims to support its members to develop and strengthen their capacity and capability to prepare for, prevent, detect, and respond to zoonotic disease threats, using a One Health<sup>1</sup> approach.</p>
ZDAP priorities	<ol style="list-style-type: none"><li>1. Establish and strengthen coordination, communication, multi-sectoral engagement, and information sharing among member countries involved in the ZDAP.</li><li>2. Strengthen the technical capacities of animal, human, wildlife and environmental health services to support zoonotic diseases prevention, detection, and response activities, using a One Health approach</li><li>3. Improve national, regional, and global cooperation and collaboration in prevention, detection, and control of zoonotic diseases</li></ol>
Meeting frequency	Virtual meetings monthly or bimonthly (via Zoom platform), as appropriate

---

<sup>1</sup> [One Health High Level Expert Panel definition](#) - One Health is an integrated, unifying approach that aims to sustainably balance and optimize the health of people, animals and ecosystems. It recognizes the health of humans, domestic and wild animals, plants, and the wider environment (including ecosystems) are closely linked and inter-dependent. The approach mobilizes multiple sectors, disciplines and communities at varying levels of society to work together to foster well-being and tackle threats to health and ecosystems, while addressing the collective need for clean water, energy and air, safe and nutritious food, taking action on climate change, and contributing to sustainable development.

---

## ZDAP members expectations and contributions for 2022

---

What benefits or value should members expect to receive from participation in ZDAP?

- Build a network of international colleagues with a shared focus on improving zoonotic disease
- Learn from members experiences and good practices of zoonotic disease prevention and control
- Develop opportunities to work collaboratively on zoonotic diseases using a One Health transdisciplinary and multisectoral approach
- Enhance skill sets through learning and development opportunities
- Improved situational awareness on zoonotic diseases

---

What contributions do you should members expect to make as part of their participation in ZDAP?

- Active participation and engagement in meetings, communications and ZDAP planning
- Volunteer to lead on specific topics of discussion, training, or learning based on experience and expertise
- Contribute to a collaborative culture by sharing openly and honestly about experiences with zoonotic disease
- Share technical expertise, guidance, and examples of good practices to support other members
- Share information on current zoonotic disease incidents

---

How do the activities of this Action Package contribute to the overall GHSA 2024 objectives, i.e. increasing health security indicators to the level of developed capacity?

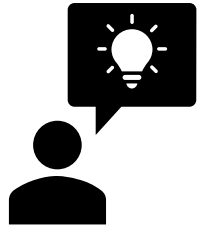

ZDAP aims to support its members to develop or strengthen their capacity to prepare, prevent, detect, and respond to zoonotic disease threats, using a One Health approach by:

- Providing a forum for collaboration and sharing of experiences and expertise on zoonotic disease to inform members future planning and actions
  - Sharing examples of good practices
  - Supporting training and skills development of members
  - Identifying and sharing information on the practical application of new strategies, research, and methodologies
-

---

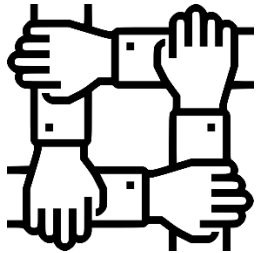

## ZDAP ways of working for 2022

---

### Inclusive

- **Equal voice:** every ZDAP member has the right to be heard.
- **Open to feedback:** the ZDAP Chairs and Co-Chairs request constructive feedback be provided, as appropriate, to improve our Action Package
- **Different channels of communication:** ZDAP members can contribute by email, orally or via the chat function at scheduled meetings, or via the Chairs

### Collaborative

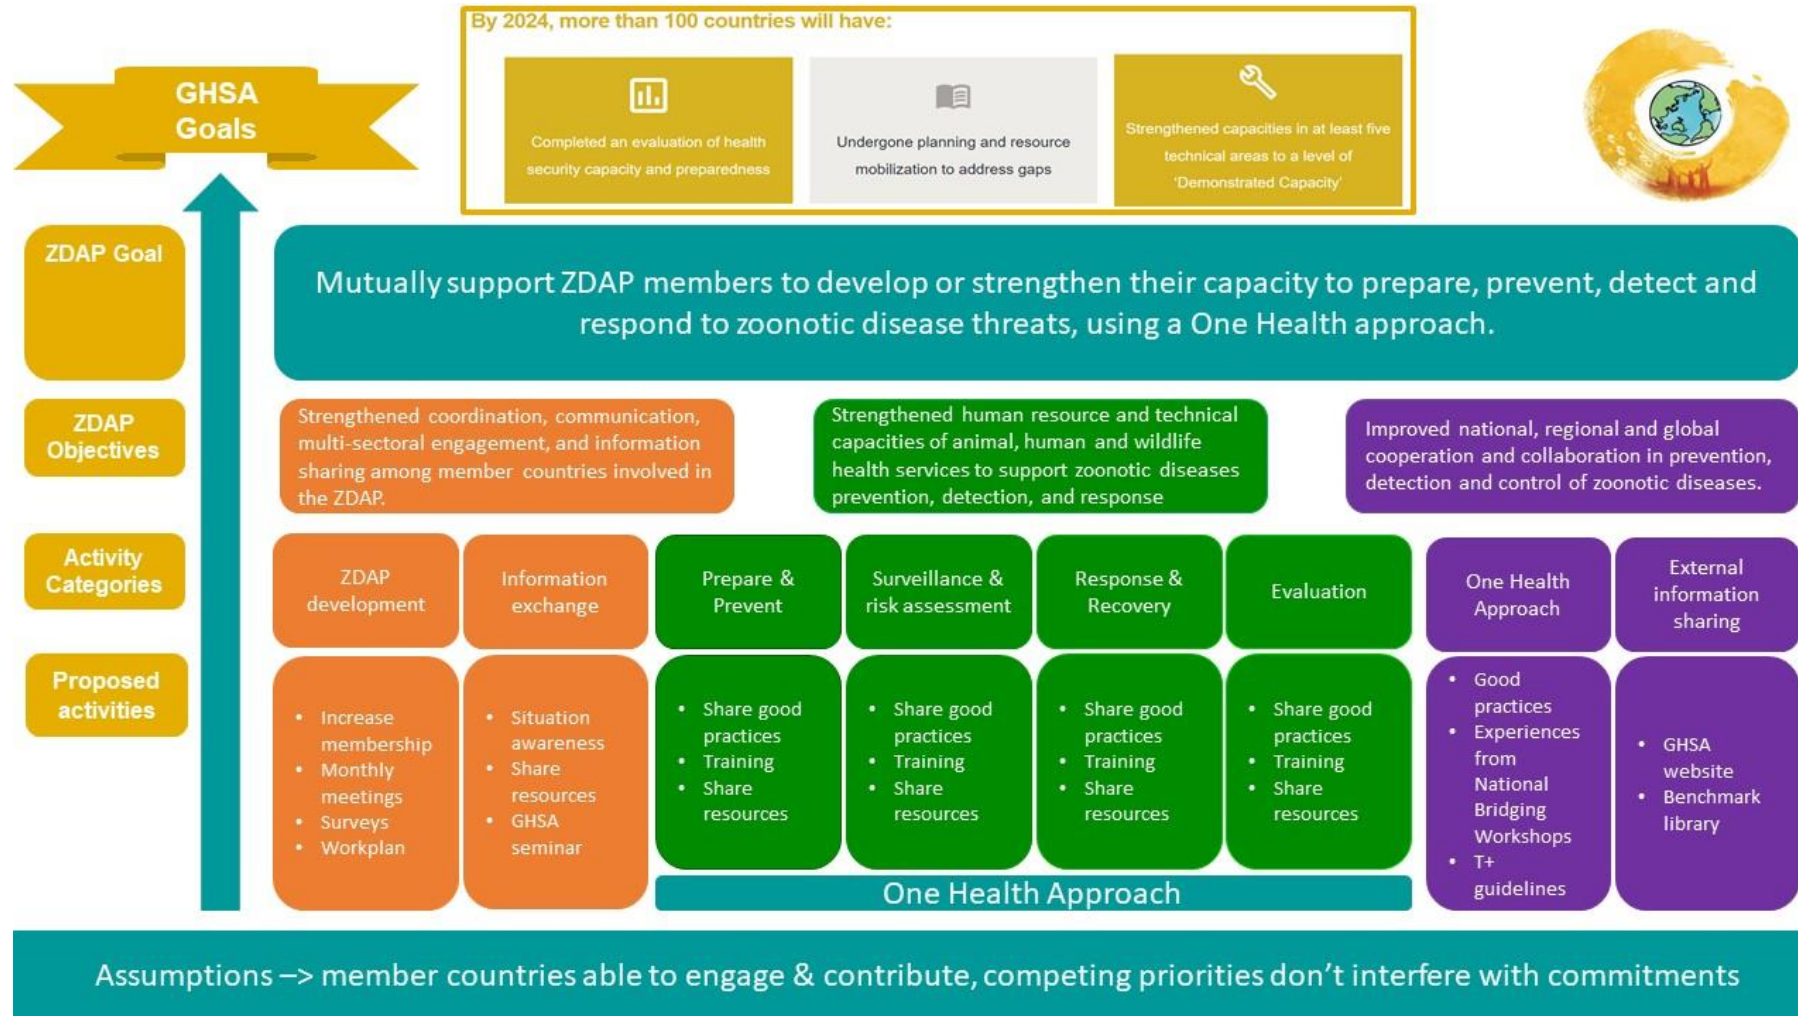

- **Partnership:** ZDAP members work collectively to improve health security at national, regional, and global level
- **Supportive:** ZDAP members support each other to improve health security by sharing lessons identified, good practices, experiences, and training opportunities to improve capacity
- **Work across technical areas:** ZDAP members identify opportunities to work with colleagues in other GHSA technical action packages to share learning opportunities

### Effective

- **Realistic goals:** the ZDAP workplan will be informed by, and created jointly with members ensuring all plans and goals are attainable with current resources
- **Purposeful activities:** all ZDAP activities and meetings will be planned according to the workplan and to support core ZDAP objectives
- **Monitoring and evaluation:** the impact and utility of ZDAP will be measured at regular intervals to ensure it is meeting key objectives and members expectations

# ZDAP Theory of Change for 2022

## ZDAP Workplan for 2022

Priority 1: Establish and strengthen coordination, communication, multi-sectoral engagement, and information sharing among member countries involved in the ZDAP									
Activity			Timeframe for delivery				Monitoring and Evaluation	Management	
Category	Milestone	Deliverables	Q1	Q2	Q3	Q4	Measurables	Lead	Support
ZDAP development	Increase membership	Review membership	X			X	# members start of 2022 # members end of 2022 Updates to GHSA website	UK	Co-Leads
		Consult ZDAP on new members	X						
		Consult GHSA on new members	X						
	Convene group monthly	Organise and host monthly virtual meetings	X	X	X	X	# meetings held # agenda items covered # attendees (countries & participants) # minutes distributed	UK	Co-Leads
		Set agenda	X	X	X	X			
		Record meetings	X	X	X	X			
		Distribute meeting notes/minutes	X	X	X	X			
	Assess ZDAP member satisfaction	Membership survey at start of 2022	X				# of responses Repeatable questions compared & analysed	UK	-
		Membership survey at end of 2022				X			
	Development of ZDAP workplan	Agree and sign-off ZDAP workplan	X				Submission of agreed 2022 workplan to GHSA Quarterly review of outputs & measurables against workplan Submission of annual report	UK	-
		Monitor deliverables against workplan	X	X	X	X			
		ZDAP annual report				X			
	Succession planning	Organise consultation on proposed Chair(s) for 2023			X		# consultations Chair appointed for 2023 # meetings with incoming Chair to support for year ahead	UK & Co-Leads	All
		Confirmation of Chair for 2023				X			
Support of incoming Chair					X				

<b>Information exchange</b>	Share information for situational awareness	Set agenda item for monthly meetings	X	X	X	X	# information points shared	All	-
		Encourage members to share information of current incidents	X	X	X	X			
	Share guidance, reports & other outputs	Set agenda item for monthly meetings	X	X	X	X	# items shared	All	-
	Share information with key GHSA action packages	Invite key GHSA action packages to meetings/sessions covering relevant topic areas. Key action packages include: AMR, Biosecurity and Biosafety, Laboratory Systems, Surveillance, Sustainable Financing and Workforce Development	X	X	X	X	# invitations issued to action packages	UK	-
	Host GHSA-wide webinar	Organise GHSA-wide webinar	X	X			# attendees Formal & informal feedback	UK	FAO
		Produce promotional material		X					
		Promote webinar		X					
		Record webinar		X					
	Update GHSA website	Update ZDAP webpage with 2022 membership	X				# website updates	UK	All
		Update ZDAP webpage with latest mandate & priority information	X						
Update GHSA stories of impact page				X	X				

**Priority 2: Strengthen the technical capacities of animal, human, wildlife and environmental health services to support zoonotic diseases prevention, detection, and response activities, using a One Health approach**

Activity			Timeframe for delivery				Monitoring and Evaluation	Management	
Category	Milestone	Deliverables	Q1	Q2	Q3	Q4	Measurables	Lead	Support
<b>Prepare and Prevent</b>	Sharing good practices to aid learning and development	Share examples of good practices by members					# of examples of good practices shared		
		Share examples of good practices by non-members							
		Consider examples for impact stories or for inclusion in benchmark library							
	Identifying training/learning opportunities to aid learning and development	Share external training opportunities for ZDAP members	X	X	X	X	# of training opportunities shared # of training activities organised		
		Organise training opportunities if pre-existing material not available & required							
Sharing resources to aid learning and development	Share documents, guidance, SoPs, etc					# of resources shared			
<b>Surveillance and Risk Assessment</b>	Sharing good practices to aid learning and development	Share examples of good practices by members					# of examples of good practices shared		
		Share examples of good practices by non-members							
		Consider examples for impact stories or for inclusion in benchmark library							
	Identifying training/learning	Share external training opportunities for ZDAP members	X	X	X	X	# of training opportunities shared # of training activities organised		

	opportunities to aid learning and development	Organise training opportunities if preexisting material not available & required							
	Sharing resources to aid learning and development	Share documents, guidance, SoPs, etc						# of resources shared	
<b>Response and Recovery</b>	Sharing good practices to aid learning and development	Share examples of good practices by members						# of examples of good practices shared	
		Share examples of good practices by non-members							
		Consider examples for impact stories or for inclusion in benchmark library							
	Identifying training opportunities to aid learning and development	Share external training opportunities for ZDAP members	X	X	X	X		# of training opportunities shared # of training activities organised	
		Organise training opportunities if preexisting material not available & required							
	Sharing resources to aid learning and development	Share documents, guidance, SoPs, etc						# of resources shared	
<b>Evaluation</b>	Sharing good practices to aid learning and development	Share examples of good practices by members						# of examples of good practices shared	
		Share examples of good practices by non-members							
		Consider examples for impact stories or for inclusion in benchmark library							
	Identifying training/learning	Share external training opportunities for ZDAP members	X	X	X	X		# of training opportunities shared # of training activities organised	

	opportunities to aid learning and development	Organise training opportunities if pre-existing material not available & required							
	Sharing resources to aid learning and development	Share documents, guidance, SoPs, etc					# of resources shared		

**Priority 3: Improve national, regional, and global cooperation and collaboration in prevention, detection, and control of zoonotic diseases**

Activity			Timeframe for delivery				Monitoring and Evaluation	Management	
Category	Milestone	Deliverables	Q1	Q2	Q3	Q4	Measurables	Lead	Support
One Health Approach	Sharing good practices to aid learning and development	Share examples of good practices by members					# good practices shared (Note: good practice from priority 2 & 3 are likely to cross-cover)		
		Share examples of good practices by non-members							
	Integration of the One Health approach into training programs	Session/workshop on the in-country training of human, animal and environmental health sectors on the One Health approach					<i>Under consideration by the UK</i>		
	Tripartite and UNEP Joint Plan of Action	Work with T+ to organize training on new Joint Plan of Action		X			Delivery of training # attendees at session		
	Lessons identified from IHR-PVS National Bridging Workshops	Organise a session for members who have done NBWs to discuss their experiences			X		Delivery of session # members shared experiences # attendees at session		
	The One Health approach as measured by revisions to SPAR & JEE tools	Gather members experiences from revised SPAR & JEE tools		X	X	X	# of experiences gathered # of contributing members Submission of feedback to WHO	UK	
Summarise feedback and feedback to WHO team				X	X				
	WHO benchmark library	Consider examples of good practices for inclusion in benchmark library					# items contributed to WHO benchmark library		

<b>External Information Sharing</b>	Update GHSA website	Update ZDAP webpage with 2022 membership	X				# Updates to ZDAP webpage # ZDAP stories of impact in 2022	UK	All
		Update ZDAP webpage with latest mandate & priority information	X						
		Consider examples of good practices for inclusion on GHSA stories of impact webpage		X	X	X			
	Publication	Consider potential for external publication as a Group		X	X	X	# publications submitted (peer reviewed or grey literature)	UK	All
